

English

This half term children will be writing descriptive stories based on our class novel, *The Wild Way Home*. Children will be developing their range of sentence starters and using a variety of conjunctions to add interest to their writing. Work will also continue on using paragraphs to separate their writing into appropriate sections. Weekly spelling patterns and focus words will be practised to develop vocabulary. Children will be reading a range of texts in reading fluency sessions to develop their reading fluency and comprehension skills.

History—Stone Age to Iron Age

Children will learn about what life was like in prehistoric times. They will find out about the way of life including clothes, food and shelter, as well as looking at the tools they used and their inventions.

DT

This half term we will be designing, creating and evaluating a cushion.

Art Children will use and keep a sketchbook to record their observations and use them to explore their ideas. To link with our topic of the Stone Age the children will use a variety of different art techniques to make prehistoric art paintings and models.

Music—Glockenspiels

Children have begun learning basic pitch songs based on two notes, recognising and playing high and low pitch. We are now moving on songs of more complex melodies of up to 5 notes, using voices to sing the melodies at the same time.

Science—Rocks

Pupils will be taught to compare and group together different kinds of rocks on the basis of their appearance and simple physical properties. They will also describe in simple terms how fossils are formed when things that have lived are trapped within rock and also recognise that soils are made from rocks and organic matter.

Year 3 Curriculum overview

Spring 1

Cookridge Holy Trinity Church of England (A) Primary School

French

Children will learn how to say and recognise phrases in French linked to our topic of Ancient Britain.

Computing

Children will use the internet effectively to communicate with one another. They will learn about the risks posed online and will also be taught to use technology safely, respectfully and responsibly.

Maths—Multiplication, division and measure

Through practical activities, children will further hone their knowledge of written methods for multiplication and division.

Children will then further their knowledge of measure looking at length, capacity and mass while undertaking practical activities. They will also continue their times table practice.

WEEKLY MATHLETICS / TTRS TASKS SET

RE

This half term pupils will be learning about the Gospel which tells the story of the life and teaching of Jesus. They will explore what is meant by the Gospel and how Christians today try to follow Jesus and be 'fishers of people'.

Physical Education

During PE sessions children will continue to develop coordination and body movement to an increasing complexity.

PSHE

Children will talk about money, what value for money means as well as developing an understanding of how to look after money and the importance of budgeting. They will also learn about the world of work and different types of jobs.
